1. The company is a public company (C), and the company is a public company (C), and the company is a public company (C).

USF PARKING GOES VIRTUAL

2021-2022

USF Parking has successfully transitioned to a virtual parking system for the 2021-2022 academic year. This new system allows students and faculty to manage their parking permits online, making the process more efficient and user-friendly. The virtual system includes features such as online permit renewal, payment processing, and the ability to report lost permits. This transition was a significant step in modernizing USF's parking management and ensuring a smoother experience for the campus community.

The virtual parking system is available to all USF students and faculty. It provides a secure and convenient way to handle parking-related tasks, reducing the need for in-person visits to the parking office. This system is a testament to USF's commitment to digital transformation and improving campus services.

2021-2022

USF RECOGNIZED FOR TEN YEARS OF SUSTAINABLE CAMPUS FORESTRY
