

USF POLICE DEPARTMENT MEDIA RELEASE

DATE: October 01, 2014

CONTACT: Asst. Chief Chris Daniel, PIO
(813) 974-3961

SUBJECT: USF Police to Conduct Comprehensive
Roadside Safety Checkpoint

TAMPA: The University of South Florida Police Department will host a one-hour Comprehensive Roadside Safety Checkpoint on the USF Campus on October 14, 2014, beginning at 8:00 p.m. The checkpoint operation will be immediately followed by a 7-hour saturation patrol. During this time, USF Police Officers will seek to identify impaired drivers in an effort to keep our streets safe. Impaired drivers that are identified will face arrest and prosecution. This operation is part of a comprehensive, collaborative approach to traffic safety by the USF Police Department.

1. Introduction
The purpose of this study is to investigate the effects of a new educational program on student learning outcomes. The program is designed to enhance critical thinking and problem-solving skills through a series of interactive activities and projects.

2. Methodology
The study employed a quasi-experimental design. A sample of 100 students was divided into two groups: an experimental group that received the new program and a control group that received the traditional curriculum. Data was collected through pre-tests, post-tests, and student self-reports.

3. Results
The results of the study indicate that the experimental group showed significantly higher scores on the post-test compared to the control group. This suggests that the new program was effective in improving student learning outcomes.

4. Conclusion
Based on the findings, it is concluded that the new educational program is a promising approach for enhancing student learning. Further research is needed to explore the long-term effects of the program and to identify the most effective components.
