

A doctoral student in the Department of Mechanical Engineering was awarded a Leland Energy Fellowship (MLEF) while working on the Hyper project (Fuel cell and hydrogen power system) at the National Energy Technology Laboratory (NETL) in Morgantown, West Virginia. The student's research experiences aligned with the mission of the Department of Energy's (DOE) Office of Fossil Energy in strengthening a diverse pipeline of future STEM professionals. For her dissertation research, Moloney is advised by Dr. Yogi Goswami, a distinguished professor in the Department of Chemical and Biological Engineering and a director of the Energy Research Center (CERC).

Garcia, a first-year doctoral student in the Department of Electrical Engineering, has been selected to receive the 2017-2018 Georgia Louis Alliance for Minority Participation (GLAMP) Fellowship. She is currently a graduate research assistant in the Department of Electrical Engineering.
