

early January 2010, the College helped to dedicate a new Science and Technology Building on the St. Petersburg campus that will provide additional classroom and laboratory space for both the College of Marine Science and USF St. Petersburg College of Arts and Science. This new building will also house some education and community outreach programs to include a portion of the Oceanography Camp for Girls and select Science Teachers Training Workshops. And it will be the site for the 2010 National Ocean Science Bowl Finals Competition that is being hosted by the College in late April.

Following the example of the Marine Sc Scienc
