Representation of Physical Condition

The Activities often require vigorous exertion or effort. It is your responsibility as parent or guardian to determine if your Dependent is fit and in good enough health to participate in the Activities. USF cannot provide medical advice to you or your Dependent. If you are in doubt seek out the advice of your doctor. We will be glad to discuss the Activities with your doctor if necessary. If there is anything else you would like us to know in order to attend to your child better should an emergency arise, please let us know (examples: allergy to bees, diabetic).
